Carnegie Learning Middle School Math Solution 6–8（Texas Math Solution） 大纲与海报计划

版本：Carnegie Learning 的初中数学教材 **Middle School Math Solution**（六、七、八年级，配套自适应软件 MATHia）。本大纲依据的是官网公开的 **Texas Math Solution**（德克萨斯州定制版，© 2021 Carnegie Learning，对齐 TEKS）学生用书前页目录。教材**没有开放许可**（© Carnegie Learning, Inc.，版权所有），本项目只引用公开的目录信息。

为什么用德州版：通用（CCSS）版的完整目录没有找到可公开下载的官方文件；德州版的目录由 Carnegie Learning 官网直接提供，模块、主题（Topic）、课的标题完整。两版的模块框架相近，但课的数量和顺序有差别（例如德州版加了金融素养 Financial Literacy 主题），所以这里的结构**只代表德州版**，和通用版对照前需要核对（待核）。

目录来源：每个年级 5 个模块；模块名、Topic 名、每课的标题（前面是情境标题，括号里是数学内容副标题）逐字摘自三份 Student Edition 前页 PDF。中文模块名是本项目的翻译，课名保留英文原文。各年级末尾的 End of Course Performance Tasks（表现性任务）没有计入课数。

海报粒度：每个模块一张，全套 15 张（每个年级 5 张）。每张海报 3 行，挑这一模块最核心的 3 个 Topic 或内容。

本地化：英制单位改为公制，美元改为人民币；德州版的金融素养内容（支票账户、信用报告等）换成中国学生熟悉的储蓄、利息和预算情境。原书的题目和插图没有使用，海报里的情境和数字都是自编的同类例子，标「示例」。

- Grade 8 Student Edition 前页与目录（PDF）

六年级（Grade 6） · 5 个模块 · 62 课

模块1 组合和分解（Composing and Decomposing）

- 来源：Grade 6 Student Edition 前页与目录（PDF）
- Topic：1. Factors and Multiples；2. Positive Rational Numbers；3. Shapes and Solids；4. Decimals
- Topic 1 Factors and Multiples · Lesson 1.1：Taking Apart Numbers and Shapes（Writing Equivalent Expressions Using the Distributive Property）
- Topic 1 Factors and Multiples · Lesson 1.2：Searching for Common Ground（Identifying Common Factors and Common Multiples）
- Topic 1 Factors and Multiples · Lesson 1.3：Composing and Decomposing Numbers（Least Common Multiple and Greatest Common Factor）
- Topic 2 Positive Rational Numbers · Lesson 2.1：Rocket Strips（Dividing a Whole into Fractional Parts）
- Topic 2 Positive Rational Numbers · Lesson 2.2：Getting Closer（Benchmark Fractions）
- Topic 2 Positive Rational Numbers · Lesson 2.3：Did You Get the Part?（Multiplying Fractions）
- Topic 2 Positive Rational Numbers · Lesson 2.4：Yours IS to Reason Why!（Fraction by Fraction Division）
- Topic 3 Shapes and Solids · Lesson 3.1：Consider Every Side（Constructing Triangles Given Sides）
- Topic 3 Shapes and Solids · Lesson 3.2：Turning a One-Eighty!（Triangle Sum Theorem）
- Topic 3 Shapes and Solids · Lesson 3.3：All About That Base… and Height（Area of Triangles and Quadrilaterals）
- Topic 3 Shapes and Solids · Lesson 3.4：Length, Width, and Depth（Deepening Understanding of Volume）
- Topic 4 Decimals · Lesson 4.1：You Have a Point（Plotting, Comparing, and Ordering Rational Numbers）
- Topic 4 Decimals · Lesson 4.2：Get in Line（Adding and Subtracting Decimals）
- Topic 4 Decimals · Lesson 4.3：Product Placement（Multiplying Decimals）
- Topic 4 Decimals · Lesson 4.4：Dividend in the House（Dividing Whole Numbers and Decimals）

模块2 数量之间的关系（Relating Quantities）

- 来源：Grade 6 Student Edition 前页与目录（PDF）
- Topic：1. Ratios；2. Percents；3. Unit Rates and Conversions
- Topic 1 Ratios · Lesson 1.1：It’s All Relative（Introduction to Ratio and Ratio Reasoning）
- Topic 1 Ratios · Lesson 1.2：Going Strong!（Comparing Ratios to Solve Problems）
- Topic 1 Ratios · Lesson 1.3：Oh, Yes, I Am the Muffin Man（Determining Equivalent Ratios）
- Topic 1 Ratios · Lesson 1.4：A Trip to the Moon（Using Tables to Represent Equivalent Ratios）
- Topic 1 Ratios · Lesson 1.5：They’re Growing!（Graphs of Ratios）
- Topic 1 Ratios · Lesson 1.6：One is Not Enough（Using and Comparing Ratio Representations）
- Topic 2 Percents · Lesson 2.1：We Are Family!（Percent, Fraction, and Decimal Equivalence）
- Topic 2 Percents · Lesson 2.2：Warming the Bench（Using Estimation and Benchmark Percents）

- Topic 2 Percents · Lesson 2.3：The Forest for the Trees（Determining the Part and the Whole in Percent Problems）
- Topic 3 Unit Rates and Conversions · Lesson 3.1：Several Ways to Measure（Using Ratio Reasoning to Convert Units）
- Topic 3 Unit Rates and Conversions · Lesson 3.2：What Is the Best Buy?（Introduction to Unit Rates）
- Topic 3 Unit Rates and Conversions · Lesson 3.3：Seeing Things Differently（Multiple Representations of Unit Rates）

模块3 超越正数（Moving Beyond Positive Quantities）

- 来源：Grade 6 Student Edition 前页与目录（PDF）
- Topic：1. Signed Numbers and the Four Quadrants；2. Operating with Integers
- Topic 1 Signed Numbers and the Four Quadrants · Lesson 1.1：Human Number Line（Introduction to Negative Numbers）
- Topic 1 Signed Numbers and the Four Quadrants · Lesson 1.2：Magnificent Magnitude（Absolute Value）
- Topic 1 Signed Numbers and the Four Quadrants · Lesson 1.3：What’ s in a Name?（Rational Number System）
- Topic 1 Signed Numbers and the Four Quadrants · Lesson 1.4：Four Is Better Than One（Extending the Coordinate Plane）
- Topic 2 Operating with Integers · Lesson 2.1：Math Football（Using Models to Understand Integer Addition）
- Topic 2 Operating with Integers · Lesson 2.2：Walk the Line（Adding Integers, Part I）
- Topic 2 Operating with Integers · Lesson 2.3：Two-Color Counters（Adding Integers, Part II）
- Topic 2 Operating with Integers · Lesson 2.4：What’ s the Difference?（Subtracting Integers）
- Topic 2 Operating with Integers · Lesson 2.5：Equal Groups（Multiplying and Dividing Integers）

模块4 求未知量（Determining Unknown Quantities）

- 来源：Grade 6 Student Edition 前页与目录（PDF）
- Topic：1. Expressions；2. Equations and Inequalities；3. Graphing Quantitative Relationships；4. Financial Literacy: Accounts, Credit, and Careers
- Topic 1 Expressions · Lesson 1.1：Relationships Matter（Evaluating Numeric Expressions）
- Topic 1 Expressions · Lesson 1.2：Into the Unknown（Introduction to Algebraic Expressions）
- Topic 1 Expressions · Lesson 1.3：Second Verse, Same as the First（Equivalent Expressions）
- Topic 1 Expressions · Lesson 1.4：Are They Saying the Same Thing?（Verifying Equivalent Expressions）
- Topic 1 Expressions · Lesson 1.5：DVDs and Songs（Using Algebraic Expressions to Analyze and Solve Problems）
- Topic 2 Equations and Inequalities · Lesson 2.1：First Among Equals（Reasoning with Equal Expressions）
- Topic 2 Equations and Inequalities · Lesson 2.2：Bar None（Solving One-Step Addition Equations）
- Topic 2 Equations and Inequalities · Lesson 2.3：Play It In Reverse（Solving One-Step Multiplication Equations）

- Topic 2 Equations and Inequalities · Lesson 2.4：The Real Deal（Solving Equations to Solve Problems）
- Topic 2 Equations and Inequalities · Lesson 2.5：Greater Than Most（Solving Inequalities with Inverse Operations）
- Topic 3 Graphing Quantitative Relationships · Lesson 3.1：Every Graph Tells a Story（Independent and Dependent Variables）
- Topic 3 Graphing Quantitative Relationships · Lesson 3.2：The Power of the Horizontal Line（Using Graphs to Solve Problems）
- Topic 3 Graphing Quantitative Relationships · Lesson 3.3：Planes, Trains, and Paychecks（Multiple Representations of Equations）
- Topic 3 Graphing Quantitative Relationships · Lesson 3.4：Time for Triathlon Training（Relating Distance, Rate, and Time）
- Topic 3 Graphing Quantitative Relationships · Lesson 3.5：There Are Many Paths...（Problem Solving on the Coordinate Plane）
- Topic 4 Financial Literacy: Accounts, Credit, and Careers · Lesson 4.1：Knowledge You Can Bank On（Checking Accounts）
- Topic 4 Financial Literacy: Accounts, Credit, and Careers · Lesson 4.2：You Are a Real Card!（Debit Cards vs. Credit Cards）
- Topic 4 Financial Literacy: Accounts, Credit, and Careers · Lesson 4.3：Financial Report Card（Understanding Credit Reports）
- Topic 4 Financial Literacy: Accounts, Credit, and Careers · Lesson 4.4：The Possibilities Are Endless（Career Exploration）
- Topic 4 Financial Literacy: Accounts, Credit, and Careers · Lesson 4.5：Student Aid 101（Paying for College）

模块5 描述数据的变异（Describing Variability of Quantities）

- 来源：Grade 6 Student Edition 前页与目录（PDF）
- Topic：1. The Statistical Process；2. Numerical Summaries of Data
- Topic 1 The Statistical Process · Lesson 1.1：What’s Your Question?（Understanding the Statistical Process）
- Topic 1 The Statistical Process · Lesson 1.2：Get in Shape（Analyzing Numerical Data Displays）
- Topic 1 The Statistical Process · Lesson 1.3：Follow Me on Histogram（Using Histograms to Display Data）
- Topic 2 Numerical Summaries of Data · Lesson 2.1：In the Middle（Analyzing Data Using Measures of Center）
- Topic 2 Numerical Summaries of Data · Lesson 2.2：Box It Up（Displaying the Five-Number Summary）
- Topic 2 Numerical Summaries of Data · Lesson 2.3：Dealing with Data（Collecting, Displaying, and Analyzing Data）

七年级（Grade 7）· 5 个模块 · 50 课

模块1 比例思维（Thinking Proportionally）

- 来源：Grade 7 Student Edition 前页与目录（PDF）
- Topic：1. Circles and Ratio；2. Fractional Rates；3. Proportionality
- Topic 1 Circles and Ratio · Lesson 1.1：Pi: The Ultimate Ratio（Exploring the Ratio of Circle Circumference to Diameter）
- Topic 1 Circles and Ratio · Lesson 1.2：That’s a Spicy Pizza（Area of Circles）
- Topic 1 Circles and Ratio · Lesson 1.3：Circular Reasoning（Solving Area and Circumference Problems）
- Topic 2 Fractional Rates · Lesson 2.1：Making Punch（Unit Rate Representations）
- Topic 2 Fractional Rates · Lesson 2.2：Eggzactly!（Solving Problems with Ratios of Fractions）
- Topic 2 Fractional Rates · Lesson 2.3：Tagging Sharks（Solving Proportions Using Means and Extremes）
- Topic 3 Proportionality · Lesson 3.1：How Does Your Garden Grow?（Proportional Relationships）
- Topic 3 Proportionality · Lesson 3.2：Complying with Title IX（Constant of Proportionality）
- Topic 3 Proportionality · Lesson 3.3：Fish-Inches（Identifying the Constant of Proportionality in Graphs）
- Topic 3 Proportionality · Lesson 3.4：Minding Your Ps and Qs（Constant of Proportionality in Multiple Representations）

模块2 比例的应用（Applying Proportionally）

- 来源：Grade 7 Student Edition 前页与目录（PDF）
- Topic：1. Proportional Relationships；2. Financial Literacy: Interest and Budgets
- Topic 1 Proportional Relationships · Lesson 1.1：Markups and Markdowns（Introducing Proportions to Solve Percent Problems）
- Topic 1 Proportional Relationships · Lesson 1.2：Perks of Work（Calculating Tips, Commission, and Simple Interest）
- Topic 1 Proportional Relationships · Lesson 1.3：No Taxation Without Calculation（Sales Tax, Income Tax, and Fees）
- Topic 1 Proportional Relationships · Lesson 1.4：More Ups and Downs（Percent Increase and Percent Decrease）
- Topic 1 Proportional Relationships · Lesson 1.5：Pound for Pound, Inch for Inch（Scale and Scale Drawings）
- Topic 2 Financial Literacy: Interest and Budgets · Lesson 2.1：Student Interest（Simple and Compound Interest）
- Topic 2 Financial Literacy: Interest and Budgets · Lesson 2.2：Aren’t Peace, Love, and Understanding Worth Anything?（Net Worth Statements）
- Topic 2 Financial Literacy: Interest and Budgets · Lesson 2.3：Living Within Your Means（Personal Budgets）

模块3 代数推理（Reasoning Algebraically）

- 来源：Grade 7 Student Edition 前页与目录（PDF）
- Topic：1. Operating with Rational Numbers；2. Algebraic Expressions；3. Two-Step Equations and Inequalities；4. Multiple Representations of Equations
- Topic 1 Operating with Rational Numbers · Lesson 1.1：All Mixed Up（Adding and Subtracting Rational Numbers）
- Topic 1 Operating with Rational Numbers · Lesson 1.2：Be Rational!（Quotients of Integers）
- Topic 1 Operating with Rational Numbers · Lesson 1.3：Building a Wright Brothers' Flyer（Simplifying Expressions to Solve Problems）
- Topic 1 Operating with Rational Numbers · Lesson 1.4：Properties Schmoperties（Using Number Properties to Interpret Expressions with Signed Numbers）
- Topic 2 Algebraic Expressions · Lesson 2.1：No Substitute for Hard Work（Evaluating Algebraic Expressions）
- Topic 2 Algebraic Expressions · Lesson 2.2：Mathematics Gymnastics（Rewriting Expressions Using the Distributive Property）
- Topic 2 Algebraic Expressions · Lesson 2.3：All My Xs（Combining Like Terms）
- Topic 3 Two-Step Equations and Inequalities · Lesson 3.1：Picture Algebra（Modeling Equations as Equal Expressions）
- Topic 3 Two-Step Equations and Inequalities · Lesson 3.2：Expressions That Play Together…（Solving Equations on a Double Number Line）
- Topic 3 Two-Step Equations and Inequalities · Lesson 3.3：A Formal Affair（Using Inverse Operations to Solve Equations and Inequalities）
- Topic 4 Multiple Representations of Equations · Lesson 4.1：Put It on the Plane（Representing Equations with Tables and Graphs）
- Topic 4 Multiple Representations of Equations · Lesson 4.2：Deep Flight I（Building Inequalities and Equations to Solve Problems）
- Topic 4 Multiple Representations of Equations · Lesson 4.3：Texas Tea and Temperature（Using Multiple Representations to Solve Problems）

模块4 分析总体和概率（Analyzing Populations and Probabilities）

- 来源：Grade 7 Student Edition 前页与目录（PDF）
- Topic：1. Introduction to Probability；2. Compound Probability；3. Drawing Inferences
- Topic 1 Introduction to Probability · Lesson 1.1：Rolling, Rolling, Rolling…（Defining and Representing Probability）
- Topic 1 Introduction to Probability · Lesson 1.2：Give the Models a Chance（Probability Models）
- Topic 1 Introduction to Probability · Lesson 1.3：Toss the Cup（Determining Experimental Probability of Simple Events）
- Topic 1 Introduction to Probability · Lesson 1.4：A Simulating Conversation（Simulating Simple Experiments）
- Topic 2 Compound Probability · Lesson 2.1：Evens or Odds?（Using Arrays to Organize Outcomes）
- Topic 2 Compound Probability · Lesson 2.2：Who Doesn't Love Puppies?!（Using Tree Diagrams）
- Topic 2 Compound Probability · Lesson 2.3：Pet Shop Probability（Determining Compound Probability）

- Topic 2 Compound Probability · Lesson 2.4：On a Hot Streak（Simulating Probability of Compound Events）
- Topic 3 Drawing Inferences · Lesson 3.1：We Want to Hear From You!（Collecting Random Samples）
- Topic 3 Drawing Inferences · Lesson 3.2：Tiles, Gumballs, and Pumpkins（Using Random Samples to Draw Inferences）
- Topic 3 Drawing Inferences · Lesson 3.3：Raising the Bar（Bar Graphs）
- Topic 3 Drawing Inferences · Lesson 3.4：Dark or Spicy?（Comparing Two Populations）
- Topic 3 Drawing Inferences · Lesson 3.5：That’ s So Random（Using Random Samples from Two Populations to Draw Conclusions）

模块5 构造和测量（Constructing and Measuring）

- 来源：Grade 7 Student Edition 前页与目录（PDF）
- Topic：1. Area and Surface Area；2. Three-Dimensional Figures
- Topic 1 Area and Surface Area · Lesson 1.1：Slicing and Dicing（Composite Figures）
- Topic 1 Area and Surface Area · Lesson 1.2：Breaking the Fourth Wall（Surface Area of Rectangular Prisms and Pyramids）
- Topic 1 Area and Surface Area · Lesson 1.3：Seeing it From a Different Angle（Special Angle Relationships）
- Topic 2 Three-Dimensional Figures · Lesson 2.1：Hey, Mister, Got Some Bird Seed?（Volume of Pyramids）
- Topic 2 Three-Dimensional Figures · Lesson 2.2：Sounds Like Surface Area（Surface Area of Pyramids）
- Topic 2 Three-Dimensional Figures · Lesson 2.3：More Than Four Sides of the Story（Volume and Surface Area of Prisms and Pyramids）

八年级（Grade 8） · 5 个模块 · 53 课

模块1 几何图形的变换（Transforming Geometric Objects）

- 来源：Grade 8 Student Edition 前页与目录（PDF）
- Topic：1. Rigid Motion Transformations；2. Similarity；3. Line and Angle Relationships
- Topic 1 Rigid Motion Transformations · Lesson 1.1：Patty Paper, Patty Paper（Introduction to Congruent Figures）
- Topic 1 Rigid Motion Transformations · Lesson 1.2：Slides, Flips, and Spins（Introduction to Rigid Motions）
- Topic 1 Rigid Motion Transformations · Lesson 1.3：Lateral Moves（Translations of Figures on the Coordinate Plane）
- Topic 1 Rigid Motion Transformations · Lesson 1.4：Mirror, Mirror（Reflections of Figures on the Coordinate Plane）
- Topic 1 Rigid Motion Transformations · Lesson 1.5：Half Turns and Quarter Turns（Rotations of Figures on the Coordinate Plane）
- Topic 1 Rigid Motion Transformations · Lesson 1.6：Every Which Way（Combining Rigid Motions）
- Topic 2 Similarity · Lesson 2.1：Pinch-Zoom Geometry（Dilations of Figures）
- Topic 2 Similarity · Lesson 2.2：Rising, Running, Stepping, Scaling（Dilating Figures on the Coordinate Plane）
- Topic 2 Similarity · Lesson 2.3：From Here to There（Mapping Similar Figures Using Transformations）
- Topic 3 Line and Angle Relationships · Lesson 3.1：Pulling a One-Eighty!（Triangle Sum and Exterior Angle Theorems）
- Topic 3 Line and Angle Relationships · Lesson 3.2：Crisscross Applesauce（Angle Relationships Formed by Lines Intersected by a Transversal）
- Topic 3 Line and Angle Relationships · Lesson 3.3：The Vanishing Point（The Angle-Angle Similarity Theorem）

模块2 函数基础（Developing Function Foundations）

- 来源：Grade 8 Student Edition 前页与目录（PDF）
- Topic：1. From Proportions to Linear Relationships；2. Linear Relationships；3. Introduction to Functions
- Topic 1 From Proportions to Linear Relationships · Lesson 1.1：Post-Secondary Proportions（Representations of Proportional Relationships）
- Topic 1 From Proportions to Linear Relationships · Lesson 1.2：Jack and Jill Went Up the Hill（Using Similar Triangles to Describe the Steepness of a Line）
- Topic 1 From Proportions to Linear Relationships · Lesson 1.3：Slippery Slopes（Exploring Slopes Using Similar Triangles）
- Topic 1 From Proportions to Linear Relationships · Lesson 1.4：Up, Down, and All Around（Transformations of Lines）
- Topic 2 Linear Relationships · Lesson 2.1：U.S. Shirts（Using Tables, Graphs, and Equations）
- Topic 2 Linear Relationships · Lesson 2.2：At the Arcade（Linear Relationships in Tables）

- Topic 2 Linear Relationships · Lesson 2.3：Dining, Dancing, Driving（Linear Relationships in Context）
- Topic 2 Linear Relationships · Lesson 2.4：Derby Day（Slope-Intercept Form of a Line）
- Topic 3 Introduction to Functions · Lesson 3.1：Patterns, Sequences, Rules…（Analyzing Sequences as Rules）
- Topic 3 Introduction to Functions · Lesson 3.2：Once Upon a Graph（Analyzing the Characteristics of Graphs of Relationships）
- Topic 3 Introduction to Functions · Lesson 3.3：One or More Xs to One Y（Defining Functional Relationships）
- Topic 3 Introduction to Functions · Lesson 3.4：Over the River and Through the Woods（Describing Functions）
- Topic 3 Introduction to Functions · Lesson 3.5：Comparing Apples to Oranges（Comparing Functions Using Different Representations）

模块3 无处不在的数据（Data Data Everywhere）

- 来源：Grade 8 Student Edition 前页与目录（PDF）
- Topic：1. Patterns in Bivariate Data；2. Variablility and Sampling
- Topic 1 Patterns in Bivariate Data · Lesson 1.1：Pass the Squeeze（Analyzing Patterns in Scatter Plots）
- Topic 1 Patterns in Bivariate Data · Lesson 1.2：Where Do You Buy Your Books?（Drawing Lines of Best Fit）
- Topic 1 Patterns in Bivariate Data · Lesson 1.3：Mia Is Growing Like a Weed（Analyzing Lines of Best Fit）
- Topic 1 Patterns in Bivariate Data · Lesson 1.4：The Stroop Test（Comparing Slopes and Intercepts of Data from Experiments）
- Topic 2 Variablility and Sampling · Lesson 2.1：March MADness（Mean Absolute Deviation）
- Topic 2 Variablility and Sampling · Lesson 2.2：Let’s Hear From You!（Collecting Random Samples）
- Topic 2 Variablility and Sampling · Lesson 2.3：Tiles, Gumballs, and Pumpkins（Using Random Samples to Draw Inferences）

模块4 线性方程建模（Modeling Linear Equations）

- 来源：Grade 8 Student Edition 前页与目录（PDF）
- Topic：1. Solving Linear Equations；2. Systems of Linear Equations
- Topic 1 Solving Linear Equations · Lesson 1.1：Solving Strategically（Equations with Variables on Both Sides）
- Topic 1 Solving Linear Equations · Lesson 1.2：DVDs and MP3s（Analyzing and Solving Linear Equations）
- Topic 2 Systems of Linear Equations · Lesson 2.1：Crossing Paths（Point of Intersection of Linear Graphs）
- Topic 2 Systems of Linear Equations · Lesson 2.2：The Road Less Traveled（Systems of Linear Equations）
- Topic 2 Systems of Linear Equations · Lesson 2.3：Roller Rink Rockin’（Solving Linear Systems）

模块5 乘方的应用（Applying Powers）

- 来源：Grade 8 Student Edition 前页与目录（PDF）
- Topic：1. Real Numbers；2. The Pythagorean Theorem；3. Financial Literacy: Your Financial Future；4. Volume of Curved Figures
- Topic 1 Real Numbers · Lesson 1.1：So Many Numbers, So Little Time（Sorting Numbers）
- Topic 1 Real Numbers · Lesson 1.2：Rational Decisions（Rational and Irrational Numbers）
- Topic 1 Real Numbers · Lesson 1.3：Establishing Roots（The Real Numbers）
- Topic 1 Real Numbers · Lesson 1.4：The Big and Small of It（Scientific Notation）
- Topic 2 The Pythagorean Theorem · Lesson 2.1：The Right Triangle Connection（The Pythagorean Theorem）
- Topic 2 The Pythagorean Theorem · Lesson 2.2：Can That Be Right?（The Converse of the Pythagorean Theorem）
- Topic 2 The Pythagorean Theorem · Lesson 2.3：Pythagoras Meets Descartes（Distances in a Coordinate System）
- Topic 2 The Pythagorean Theorem · Lesson 2.4：Catty Corner（Side Lengths in Two and Three Dimensions）
- Topic 3 Financial Literacy: Your Financial Future · Lesson 3.1：Terms of Financial Endearment（Simple and Compound Interest）
- Topic 3 Financial Literacy: Your Financial Future · Lesson 3.2：On Good Terms（Terms of a Loan）
- Topic 3 Financial Literacy: Your Financial Future · Lesson 3.3：Tech Savvy and Responsible（Online Calculators）
- Topic 3 Financial Literacy: Your Financial Future · Lesson 3.4：Why All the Fuss Over Post-Secondary Education?（Financing Your Education）
- Topic 4 Volume of Curved Figures · Lesson 4.1：Start the Drum Roll（Volume and Surface Area of a Cylinder）
- Topic 4 Volume of Curved Figures · Lesson 4.2：Cone of Silence（Volume of a Cone）
- Topic 4 Volume of Curved Figures · Lesson 4.3：Pulled in All Directions（Volume of a Sphere）
- Topic 4 Volume of Curved Figures · Lesson 4.4：Pack It Up（Volume and Surface Area Problems with Prisms, Cylinders, Cones, and Spheres）

说明和待核事项

- 本大纲只对应德州版（Texas Math Solution，2021）；通用版 Middle School Math Solution 的模块名大致相同，但 Topic 和课可能不同，待核。
- 八年级 Module 3 有一个 Topic 名在原 PDF 里拼作「Variablility and Sampling」（原文拼写错误），这里照录。
- 少数课的副标题在 PDF 里跨两行，本项目把两行拼起来，拼接处待核。
- 本大纲和海报由 AI 辅助整理，**公开发布或用于教学前需要人工审核**。
